Booth School of Business
5807 South Woodlawn Avenue
Chicago, Illinois 60637
Stephen.Lamb@chicagobooth.edu

PRINCIPAL RESEARCHER

The Booth School of Business at the University of Chicago (Chicago, Illinois) invites applications for postdoctoral Principal Researcher (PR) positions. The PR will tackle research problems at the intersection of Scientific Machine Learning and Operations Management using deep learning. The potential projects include developing computational methods for solving high dimensional dynamic control problems arising in operations management. The position is expected to last one year with the possibility of second year, with competitive salary and benefits. The appointment will start in summer 2026.

To be considered in the first round of review, please submit your application by January 15, 2026. Applications submitted after date will be considered on a rolling basis until the position is filled. Please submit your application materials electronically: **Application Materials:**

1. Curriculum vitae
2. Ph.D. thesis, thesis papers, or writing sample if available
3. Cover letter, including a brief description of research interests, how you heard about this position, when you can start, and how this position will help advance your career goals.
4. Graduate transcripts
5. Two recommendation letters: have recommenders email stephen.lamb@chicagobooth.edu directly
