'Gijs de Leve' prize

Juli 2017

Dear members of the LNMB,

The 'Gijs de Leve' prize honors the best PhD thesis in the area 'Mathematics of Operations Research'. It is awarded every three years since 1997 and the previous winners of this prize were

- Sem Borst (1994-1996)
- Jos Sturm (1997-1999)
- Bert Zwart (2000-2002)
- Rene Sitters (2003-2005)
- Ton Dieker (2006-2008)
- Leo van Iersel (2009-2011)
- Arnoud den Boer (2012-2014).

During the Lunteren Conference 2018 this price will again be awarded for the best PhD thesis of the years 2015-2017. For this we ask you as members of the LNMB to submit possible candidates for the Gijs de Leve prize. Please send us next to the name of the candidate also a short argumentation and a copy of the PhD thesis (if possible an electronic version) before 15 October 2017. As usual, the daily board of the LNMB forms the jury and, next to 'everlasting fame', the winner of the prize will also receive 1000 Euro.

On Behalf of the daily board,
Dick den Hertog and Johann Hurink
