Vacancy: Director LNMB

The LNMB (Dutch Network on the Mathematics of Operations Research)

Since 1988, the LNMB network has been offering a very successful national educational program in the 'Mathematics of Operations Research', consisting of both master- and PhD courses. The master program consists of six courses given in two semesters in cooperation with Mastermath, and the PhD program is based on a 2-year cycle, whereby each year nine courses are taught in three trimesters. Every year about 250 master students and 150 PhD students take part in these courses.

Next to this educational task, the LNMB is also a platform for the Mathematics of Operations Research in The Netherlands. The LNMB has around 120 members, with a general board, in which all universities and the CWI are present, and a daily board. The director of the LNMB is the secretary of these boards. Furthermore, every year the LNMB organizes the LNMB conference in Lunteren, where on the first two days outstanding international scientists give lectures, and PhD students of the LNMB get the opportunity to present their work. The last day of the conference is organized as a seminar together with the NGB (the Dutch OR society). In 2018 this conference attracted over 200 participants.

TASKS

The director leads the LNMB in a broad sense. She/he hereby has to involve all Dutch universities and the CWI, and has to ensure a good coordination with other relevant organizations, e.g. 4TU, NGB, Mastermath, BETA, and TRAIL.

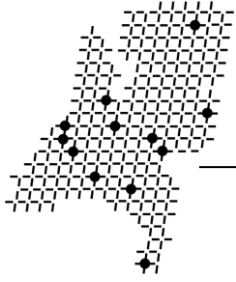

Furthermore, the director is responsible for:

- a. The preparation, execution and evaluation of the teaching programs.
- b. The organization of the yearly LNMB conference on the Mathematics of Operations Research in Lunteren.
- c. Supervising the structural financing of the LNMB and the financial administration.
- d. Taking care of the administration, the meetings and the LNMB website.

For these tasks support of a part-time secretary is available. The director reports to the general and the daily board of the LNMB.

PROFILE

For the open position, we are looking for a researcher in the field 'Mathematics of Operations Research' with an excellent track record in research, including publications in important international journals. A broad overview of the field 'Mathematics of Operations Research' is a requirement. She/he has outstanding organizational and administrative skills, has a client oriented attitude and is able to build and keep contacts in an inspiring manner. Excellent knowledge of English is required for this position. Knowledge of the Dutch language would be a plus.

OFFER

We offer a highly visible position on professor level in the Dutch OR community. The position involves a temporary contract for 5 year, with possible renewal for another 5-year period, starting January 1, 2020, and has a scope of activities of 0.4 fte. The salary is based on class 'HGL 2' or 'HGL 1', based on experience.

INFORMATION and APPLICATION

More information can be obtained from the current director, prof.dr. J.L. Hurink (j.l.hurink@utwente.nl; 053 – 489 3447) or from the chairman of the general board, prof.dr.ir. D. den Hertog (D.denHertog@uvt.nl, 013 – 466 2122).

Applications (including a CV and a vision statement on the future mission of the LNMB (1-2 pages)) have to be sent electronically before June 30, 2018 to:
Prof.dr.ir. D. den Hertog (chairman LNMB), D.denHertog@uvt.nl
