

HASKAYNE SCHOOL OF BUSINESS

UNIVERSITY OF  
CALGARY

Haskayne PhD

## PhD Program in operations and supply chain management accepting applications

The Haskayne School of Business at the University of Calgary is looking for applicants with exceptional academic credentials and the drive to excel at scholarly research in the area of operations and supply chain management. Our doctoral program offers an integrative approach combining a solid foundation in theory and empirical research with cutting-edge theoretical approaches as well as quantitative and qualitative methods that enable students to conduct high-value, innovative research.

### Why the Haskayne School of Business?

**Our PhD program** is a full-time, research-intensive and highly flexible program that allows students to tailor courses to their needs and interests. We provide a collaborative, supportive and intellectually stimulating research environment for discovery and dissemination of scientific knowledge applicable to the business community.

We encourage early and continual involvement in research, provide excellent mentors who work closely with students both in the classroom and on research projects, and provide access to essential resources and training in quantitative and qualitative methods and research design. Publication opportunities are plentiful, with students often co-authoring articles for high-quality journals. Our graduates have been successful in pursuing careers in academia, consulting, and industry, with 85% holding university positions.

### Haskayne faculty

We have a diverse faculty committed to excellence in research and teaching. Their research interests include:

Healthcare operations management

Mass customization

Supply chain management

Transportation and logistics

Operations strategy

Faculty research has appeared in leading journals, including:

- Decision Sciences
- European Journal of Operational Research
- Health Care Management Science
- IIE Transactions
- International Journal of Operations and Production Management
- International Journal of Production Research
- Journal of Operations Management
- Management Science
- Manufacturing & Service Operations Management
- Operations Research
- Production and Operations Management

## Funding

Our funding is competitive. We cover tuition, provide \$25,000 annually for four years, and offer generous annual travel support of up to \$6,000, which allows students to attend up to three academic conferences per year. We also support students in pursuing other internal and external scholarship opportunities. Our PhD students have a proven track record of winning high profile national scholarships, such as Social Sciences and Humanities Research Council of Canada Doctoral Scholarship and Killam Doctoral Scholarship.

## Why Calgary?

Calgary is Canada's fourth largest city and was recently named the fifth most livable city in the world by The Economist. With thriving business and finance sectors — including international oil and gas companies — and thanks to the school's close ties with the business community, Haskayne faculty and students have research access to many top businesses.

## Entrance Requirements

Educational background: operations management, industrial engineering, operations research, applied mathematics or related discipline. GMAT: Successful applicants typically score in the 700s; GPA: 3.5; TOEFL iBT: 100 or IELTS: 7.0

**Apply online** now for Fall 2017. For more information, please email [phdreq@ucalgary.ca](mailto:phdreq@ucalgary.ca)
