

University of Twente (The Netherlands), Department of Applied Mathematics

announces two new vacant positions as Assistant Professor (f/m) in Applied Mathematics, preferably in the areas

- Mathematical Optimization
- Optimization and Learning

However applicants in closely related fields (algorithms, computational statistics, discrete optimization,...) will receive full consideration, too. The vacancies can be found via the following links, which contain further details on the University of Twente, the research environment, and how to apply. The application deadline is September 15.
