

PhD Position

within the

Gravitation Research Program NETWORKS

Life Sciences and Health group at CWI

At CWI a position for a PhD student has opened within the Gravitation Research Program NETWORKS funded by the Netherlands Organisation for Scientific Research (NWO). We are looking for a PhD student with a special interest in combinatorial algorithms and their application in areas such as data mining, bioinformatics, data compression, or information retrieval. The PhD student will be positioned in the Life Sciences and Health group at CWI.

For more detailed information about the project and the application procedure, please consult: <https://www.cwi.nl/jobs/vacancies/phd-student-on-the-subject-of-combinatorial-algorithms-on-strings-and-graphs>.

The application deadline is May 1, 2019.
