

Tenure track positions for Assistant Professor in Operations Research

Department of Econometrics and Operations Research
Tilburg School of Economics and Management
Tilburg University, The Netherlands

We invite applications for tenure-track positions in **Operations Research** starting in the 2020-2021 academic year, or earlier.

Operations Research (OR) in Tilburg is known for its forefront research in areas like Optimization, Game Theory, Business Analytics, Discrete Mathematics and Applied Probability. The OR faculty have diverse expertise, and is strongly committed to advancing both theory and society through analytic research and impactful projects. An example is the Zero Hunger Lab, in which OR faculty develop models and techniques to optimize food supply chains to feed as many people as possible in countries with substantial hunger.

Applicants should demonstrate **research excellence** in an OR subfield. Applicants publish in top-ranked journals, advance quantitative methods in OR and contribute to high-impact application areas. We seek to further strengthen our core and other areas in OR, including Data Science and Analytics (theory and computation) and Stochastic OR. Applicants should possess or be close to completion of a PhD in Operations Research, Mathematics, Econometrics, Statistics, Industrial Engineering, or a related relevant field.

The OR group is part of the department of Econometrics and Operations Research, in turn embedded in the Tilburg School of Economics and Management, the leading European School for research and education in the fields of Business and Economics. The department hosts many leading experts in areas such as Operations Research, Quantitative Finance, Actuarial Science, Econometrics, Mathematical Economics and Game Theory. The department offers a BSc program in Econometrics and Operations Research and three MSc programs in Business Analytics and Operations Research, Econometrics and Mathematical Economics, and Quantitative Finance and Actuarial Science. The OR group also participates in the CentER Graduate Program in Business, both on Research Master and PhD level. Applicants should demonstrate the potential of **teaching excellence**, and aspire to become inspirational, influential top-level teachers in both undergraduate and graduate education.

We offer tenure track positions for six years, with a competitive salary and attractive job package including pension benefits, insurance discounts, ample vacation days, and end-of-year bonuses. The position can become tenured after six years if the candidate satisfies the tenure requirements of the department of Econometrics and Operations Research.

Application Instructions

Applications must include a teaching and research statement, a curriculum vita and two letters of recommendation. All applications should be submitted online at the website:

<https://www.tilburguniversity.edu/about/organization/working-at/>

Applications should be submitted in full by **December 10, 2019**. The hiring committee will review applications as they arrive, and may schedule interviews before the deadline. We therefore encourage applicants to submit their documents as soon as possible. Tilburg faculty is available to meet with applicants at the October 20-23, 2019, INFORMS annual meeting in Seattle. To express interest in a meeting at INFORMS, please contact Prof.dr. Johan van Leeuwen (j.s.h.vanleeuwen@uvt.nl) by **October 14, 2019**.
