

Workshop Stochastic Programming

August 10-11 there will be a workshop Stochastic Programming in Groningen in memory of Maarten van der Vlerk. International researchers within the field of Stochastic Programming will present their research and there will be a special session to commemorate Maarten van der Vlerk. A program of the workshop can be found at (http://www.lnmb.nl/pages/news/newsannouncementsmembers/Maarten_van_der_Vlerk_Workshop.pdf)

The workshop has a limited capacity and currently there are still 5 places available. If you are interested in attending this workshop please contact Ward Romeijnders (w.romeijnders@rug.nl). Participants will be accepted based on a first come first serve principle until the maximum workshop capacity is reached.

We hope to see you in Groningen!

Workshop organizers:
